Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Examiner and Attorney discussed possible claim amendments that would further prosecution. In particular the implicit and explicit resource state. Examiner suggested that both of these limitations and how they interact with each other in a way that one can process a packet array by dynamically dividing one section of the packet array as an implicit state and the other an explicit state. Examiner feels that an amendment that reflects this would push prosecution further and bring out what truly is the novelty of the invention. This would require further search and consideration. Attorney has suggested a rough draft be sent to the Examiner to view the newly purposed claim amendments. Examiner encourages the Attorney to do such and feel it could also aid in furthering prosecution. Examiner awaits Attorney's response .
